CTCPA JUDGE EXAMINATION

- herd. The team that drew that number had penned the two # 3's and informed the Judge they wished to keep their two head instead of taking a re-run. Do they have this choice? YES or NO
11. A cow that has already been used in the herd jumps out of the arena. Does that animal have to be returned or replaced in the herd before the rest of the runs on that herd are completed? YES or NO
12. A wrong numbered animal hovers near the trash line. All four feet cross the line during its adventure, but never all at the same time. Should the line official disqualify the team for trashing out? YES or NO
13. A rider falls from his/her horse and appears injured. Several concerned people come to his/her aid. The Judge stops the run when the fallen rider is touched. The team demands a re-run because they didn't ask for assistance. Are they entitled to a re-run? YES or NO

19. In the Junior Youth, the adult rider sees a correct numbered volunteer cow coming up the wall while his/her partners are chasing other animals. The adult does not go behind the animal to cut it out, but does let it run by him/her. Neither Youth had previously attempted to chase the animal. Is this legal? YES or NO
20. A Judge can authorize the Line Official to call roughing if he/she believes that person is fully capable of doing it correctly? YES or NO
21. In order to save time, the Judge should keep a bloodied or obviously injured animal in the herd IF it has already been used, but take it out if it hasn't? YES or NO

24. Because the previous team went out of order, a team draws a much more difficult set of three and fails to pen them. 25. It is preferred, but not mandatory, for there to be herd markers on the fence to indicate where the herd should be settled between? YES or NO
26. One of the numbers in the herd is deemed unreadable. The Judge rules that number will not be used - meaning there will only be 9 runs on the herd instead of the standard 10. The

CTCPA JUDGE EXAMINATION

In this circumstance, should the Judge tell the team their number? YES or NO
27. A team competes with three riders in the first round. In the second round, one of the riders is late and forces the team to go with two riders. The team advances to the 3rd round. Is it legal for the rider that missed the second round to rejoin the team for the 3rd round? YES or NO
28. After a team has penned its assigned cattle, it is discovered that the number had been called twice. If the team chooses, can they keep their time instead of taking a re-run on another number? YES or NO
29. If a rider is late coming into the pen but still within the 30 seconds allowed, the remaining team members must turn their back to the herd only if they are one of the last three teams on the herd? YES or NO

33. The timer should stop time on whichever flag drops first between the Line Official and the Judge? YES or NO
34. A rider is having trouble with his/her horse and ends up standing in the pen while his/her partners try to pen the correct animals. 35. The arena gate unexpectedly opens and ALL of the herd gets out. Can that herd be brought back in to finish the remaining runs? YES or NO
36. The reason for granting a re-run should only be announced if it does not point out an error by

CTCPA JUDGE EXAMINATION

37. A Judge should only call roughing when it appears to be deliberate or irresponsible? YES or NO
38. An animal being chased jumps out of the arena. Because the animal basically cleared the fence without significant contact of it, the Judge assesses that no roughing occurred. 47. The Judge cannot use the backup timers time if the official timer has a different time? YES or NO
48. If both the official clock and the backup clock read time has expired but the Judge believes the flag was dropped in time, the Judge can assign an official time to the team? YES or NO
49. The 10th team on the herd is in the arena, the herd is ready and the flag is up. The Judge verbally

CTCPA JUDGE EXAMINATION

- instructs them to go, but the team chooses to use up all of the 30 seconds they believe they are entitled to in hopes their correct animals will filter to the top. Is a team entitled to wait under these conditions? YES or NO
50. Herdholders should be allowed to make specific moves to bury a specific animal or split pairs while settling/unifying the herd between the markers and may not be called for unsportsmanlike behaviour unless they do those things after the flag is up? YES or NO

54. In the above scenario, does it matter if the gate is still open or if the gate person lets the rider in? YES or NO
55. During a run, the lights go out at the 45 second mark. The team continues and pens their cattle in 52 seconds. The Judge determines that the lights going out was sufficient cause to issue an offer of a re-run. Is the team allowed to keep the time they got instead of taking the re-run? YES or NO
56. In the above scenario, if the team decides to take the re-run, will they get credit for whatever time they get on that re-run? YES or NO
57. The Judge requests a specific #4 cow be removed when the herd is taken out. When that herd comes in the next round and the #4's are being penned, the Judge notices that the animal he/she asked to be removed is still in the herd (either no animal or the wrong animal was taken out). Does the "once committed/luck of the draw" criteria outlined in rule 10 apply

CTCPA JUDGE EXAMINATION

in this circumstance - ie no re-run is to be given as the team committed to the cattle by crossing the start line?

YES or NO

58. When a trash cow approaches the foul line when the three correct cattle and riders are on the pen side of the line, the Line Official is taught to point towards the line with their flag that the potential trash is approaching but has not yet crossed the line. When the cow crosses the line to officially become trash, the Line Official is expected at that exact moment to loudly blow a whistle to indicate that the animal is fully across. In the meantime the Judge is waiting for the first legal moment to drop the flag to stop time. Sometimes the whistle and the dropping of the flag are near simultaneous. Is it the Line Officials decision as to whether the whistle sounded before the flag was dropped?
